

Washdown Stainless Steel Bench Scale Installation Guide

Lift tray, and remove the four yellow rubber frame protector tags

Locate the plate on the underside of the scale frame. Using the L-wrench remove the 4 screws and use them to secure the column in place

Use the 4 screws on the U-bracket to secure the bracket to the column

Install indicator to U bracket with the 2 steel knobs

Place the tray on the scale frame; Use level bubble to level the scale by adjusting the feet
